

**Amendments to the Specification:**

*Please replace paragraph [43] with the following amended paragraph:*

[43] Further, the mark type (e.g., mark-type) can ~~user~~ use other indications or values such as a number instead of the ~~maser~~ master and general resume mark indicator. A number for the ~~mark\_type~~ mark-type can be designated or granted step by step (e.g., sequentially), and the master resume mark should be the resume mark that has the biggest number as mark-type and other numbers are preferably general resume marks. ~~As~~ An advantage of using numbers or the like is that updating of the mark-type info in old resume marks (e.g., general) can be concurrently performed.
